

Israel Solidarity Missions 2026

Israel needs YOU & YOU need Israel.

Israel After October 7th

The sudden and horrific attack by Hamas on October 7th changed Israel. Israel and the world are experiencing the most significant assault on the Jewish people since the Holocaust. Israel is facing this war on multiple fronts and is forced to fight for its life.

The current wave of antisemitism on university campuses and around the world must be addressed through the solidarity between Israel and the Diaspora.
